

INVITATION TO BID (ITB)

**DEMOLITION AND SITE STABILIZATION OF FLOOD-DAMAGED
RESIDENTIAL PROPERTY**

TOWN OF PLAINFIELD, VERMONT

280 Cameron Road

Plainfield VT, 05667

SUMMARY AND BACKGROUND

The Town of Plainfield is working with the State of Vermont through the Two Rivers-Ottawaquechee Regional Commission in order to remediate a dangerous hazard. There is a private home which is precariously close to falling into Plainfield's main waterway, the Great Brook. The funding for this project is provided by a number of sources and contributions from the Town of Plainfield. The Town is an equal opportunity employer.

Contractors will provide their competitive bid to demolish and/or remove all improvements, including but not limited to, septic systems, water wells, buildings, foundations, electrical and phone lines, pavement, parking, fuel tanks, debris, and household hazardous materials. All asbestos-containing material shall be abated by a firm licensed to do such work in Vermont in accordance with Vermont rules prior to demolition.

Contractors are responsible for returning the project site to a smooth, graded, stabilized, and vegetated condition that is in accordance with all applicable federal, state, and local statutes, policies, plans, and regulations.

BID GUIDELINES AND FORMAT

Contractors must submit the following three items with their bid:

1. Bid Form.
2. Contractor's proof of insurance
3. References from three previous clients

A pre-bid conference will be held at the work site, 280 Cameron Road Plainfield Plainfield, Vermont at 9:30 A.M., Wednesday, July 19, 2017. A brief overview of the project will be given at this on site meeting. It is required that contractors be in attendance to bid on the project.

The Town of Plainfield is requesting lump sum bids. Contractors shall provide a cost for the project using the Bid Form included in this document.

Section 4 of this ITB shows options that can be used for certain aspects of the demolition and site work (to indicate, for example, if septic tanks will be removed or punctured and left

in place). This has been filled out by the Town of Plainfield.

A bid package must be received by the Town of Plainfield by 12:00 P.M., noon, Wednesday July 26th, 2017 and can be either delivered or mailed to the Plainfield Town Office (149 Main Street, PO Box 217, Plainfield VT 05667) or emailed to the the Plainfield Town Clerk at: plainfieldtc@gmail.com.

The winning bidder will be selected by the sole judgment of the Town of Plainfield's Selectboard based on technical expertise and experience, cost, project schedule, and completeness of proposal. The Town of Plainfield reserves the right at its sole discretion to reject any and all bids, wholly or in part, to waive any informalities or any irregularities therein, to accept any bid even though it may not be the lowest bid, to call for rebids, to negotiate with any bidder, and to make an award which in its sole and absolute judgment will best serve the Town's interest. The Selectboard reserves the right to investigate the financial responsibility of any bidder to determine his or her ability to assure service throughout the term of the contract.

The selected contractor will work for the Town of Plainfield's Selectboard and will be responsible to the Town for satisfactory completion of the project. Payment for services rendered in accordance with the contract will be made within 30 days of successful completion of the final inspection of the property.

All contractors and subcontractors must have the following, and provide proof thereof, prior to executing a contract with the Town of Plainfield:

- a) License or certification for any work to be provided, as required.
- b) Insurance coverage as noted in this document.
- c) Technical capability, education, or expertise with regards to the skills and knowledge required to perform residential demolition projects.
- d) Contract information for three recent and unduplicated clients for similar projects, which need to include name, contact person, date of work, address and phone number.
- e) Debarment certification.
- f) Registration at SAM.gov.

3. PROJECT SPECIFICATIONS

1. This project consists of demolition, disposal, and required site work for the following property:
280 Cameron Road Plainfield, Vermont
2. The location and other particulars are identified in attachment(s) for the property that include the following:
 - Photographs of the building;
 - Tax parcel map with the subject property marked;
 - Legal description of the property, and if already on file, a copy of a survey plot by a licensed surveyor;
 - Asbestos Testing Report.
3. All work on the project as a whole must be completed by Sept 8, 2017.
4. Final invoice must be submitted by Sep 29, 2017.

4. REQUIREMENTS

Required Professional Services

Contractor Services are to be provided by an insured contractor, including subcontractors, in good-standing with the State of Vermont, holding any required certifications for the proposed work to be completed. A license or certification is required for the following professional services in Vermont: asbestos abatement, lead abatement, electrical, plumbing, and some aspects of septic system, water supply work. Services will be procured by competitive bid, and must be consistent with the Town of Plainfield's bidding policy and are subject to the regulations in 24 CFR 85.36 as it pertains to procurement services. All contractors who wish to bid on the advertised project must meet all the minimum qualifications established by the Town of Plainfield's Select Board.

Project Requirements

1. All waste generated by the project shall be lawfully disposed of and the contractor shall provide manifests of such transport and disposal by firms licensed to operate and transport in Vermont. All costs of disposal are included in the bid.
All buildings, structures shall be demolished and removed .

- 2.** Septic tanks must be removed and properly disposed of in accordance with the most recent adoption of Chapter 1 of the Vermont Environmental Protection Rules: Wastewater System and Potable Water Supply Rules.
- 3.** Septic lines and distribution boxes shall be removed.
- 4.** Unless otherwise noted, wells must be properly abandoned in accordance with the most recent adoption of Chapter 21 of the Vermont Environmental Protection Rules: Water Supply Rule and sealed no less than 1 foot below finished grade. Springs shall be filled. *Note: the town has no knowledge of wells on this property*
- 5.** No demolition or site work shall take place within the town or state road right-of-way
- 6.** Concrete slab shall be broken up
- 7.** Contractors are responsible for all access permits and sufficient access to the site, including traffic control and temporary bridges/culverts, if needed.
- 8.** Erosion control shall be provided using Best Management Practices as outlined at <https://www.epa.gov/npdes/national-menu-best-management-practices-bmps-stormwater#edu> or State of Vermont standards for construction if stricter.
- 9.** Existing trees and vegetation outside of the needed project area shall be protected with snow fencing or stakes and flagging.
- 10.** If demolition results in excavation, holes, or unusual contours, then finish grading and/or fill may be required to return the site to a “natural” state, including vegetation. Woody debris on site shall be left in place unless otherwise directed by River Engineer. **Standard conservation seeding of the graded site is included in the bid.** Sufficient topsoil shall be brought in as needed to reestablish vegetation. Any off-site fill used on site must be clean and free of invasive plants. If gravel material is required to be removed from the site by the River Engineer, it shall not be placed in any flood zone off site.
- 11.** Site work will be coordinated with the town so as to not hinder subsequent reuse. Live trees and shrubs shall be preserved, unless not feasible due to demolition.
- 12.** Specific site work may be required by permits and such work is included in this

bid, therefore potential contractors are encouraged to obtain an understanding of such requirements as change orders due to permit conditions will not be allowed. Possible requirements may include dates of work, removal of material, grading, bank alterations, temporary erosion control, berm removal, etc.

13. Contractors are responsible for coordinating with the Town on any and all permits, notices and certifications, and shall provide a copy of all to the town. Any work within locally regulated flood zones will require a town permit prior to beginning work. In addition, any work within the “top of bank” will require either an individual or general stream alteration permit from the State River Engineer, or a letter stating that no permit is needed, prior to the beginning of work. Also, contractors shall coordinate with the River Engineer to see if any permit is required from the US Army Corps of Engineers, and if such permit is required shall work with the Town to obtain it prior to beginning work.

14. All buildings have been tested for asbestos containing materials (ACM) by a qualified firm, and if present, shall be abated by a firm licensed to do such work in Vermont in accordance with Vermont rules prior to demolition. An abatement certification, in cases where abatement is needed, shall be provided to VTDOH and the town. **The bid must include any and all costs for asbestos abatement and disposal.**

15. The contractor is responsible for the required EPA/DEC notice prior to demolition and shall provide the town a copy. The contractor is responsible for notifying Dig Safe.

16. Household hazardous wastes, mercury containing thermostats, fuel tanks, florescent bulbs and ballasts shall be removed prior to demolition and disposed of properly. Fuel tanks shall be emptied, removed and disposed of per Vermont regulations by qualified contractors.

17. If a petroleum storage tank is present, then only certified firms may do removal of such and notice must be sent to DEC prior to removal and a full closure report done, including any required testing. A copy of all testing and a closure report will be provided to the town. If contamination is found on the property, or if during work a spill occurs, stop work and contact 800-641-5005 to make a report and obtain guidance on the next steps to take regarding cleanup. Please alert the State Hazard Mitigation Officer as this may result in a change to the scope of work, timeline, and ensuring

adequate funding is available. *Note: The town has no knowledge of any petroleum storage tanks on this site.*

18. All mobilization and demobilization costs are included in the bid.

19. If any archeological deposits, including Native American pottery, stone tools, bones, or human remains are uncovered during site work, the project shall be halted, the town and Project Manager notified, and reasonable measures taken to preserve the area and restrict access. Work shall only recommence upon state and federal permission.

20. Salvage of metals, untreated lumber, recycling of asphalt and concrete, and deconstruction of usable items is encouraged, however all materials salvaged must be free of asbestos, and any salvage must have a manifest as to its destination. Burying or burning of any materials is not allowed.

21. The Town of Plainfield makes no warranty that the site is safe to work on. Building and structures may have been structurally compromised and the site itself may be unstable. The contractor shall have a health and safety plan for workers on site, comply with all OSHA/VOSHA rules, and shall post the site during work for authorized personnel only.

22. The contractor shall not operate on the site earlier than 7 A.M. or later than 8 P.M.

23. Insurance

The Contractor must provide certificates of insurance to show that the following minimum coverages are in effect:

Workers Compensation: With respect to all operations performed, any contractors shall carry workers' compensation insurance in accordance with the laws of the State of Vermont.

General Liability and Property Damage: All contractors shall carry general liability insurance having all major divisions of coverage including, but not limited to:

Premises - Operations

Products and Completed

Operations Personal Injury

Liability Contractual Liability

The policy shall be on an occurrence form and limits shall not be less than:

\$1,000,000 Per Occurrence

\$2,000,000 General Aggregate

\$2,000,000 Products/Completed Operations Aggregate

\$1,000,000 Personal and Advertising Injury Liability

Any contractors shall be required to name the Town, its officers and employees as additional insureds for liability.

Automotive Liability: The contractor shall carry automotive liability insurance covering all motor vehicles, including hired and non-owned coverage, used in connection with the Agreement.

Limits of coverage shall not be less than: \$1,000,000 combined single limit.
